

WEBINAR: AN INTRODUCTION TO FCIP

The Kansas Corporation Commission (KCC) operates the Facility Conservation Improvement Program (FCIP), which is based on energy performance contracting. This is a method of financing, designing and installing comprehensive energy efficiency improvements with little to no upfront capital. The costs of energy retrofits are paid for over time by future guaranteed savings from utility and maintenance budgets.

Our Agenda

- **10:00am:** Overview (Tim Unruh, NAESCO)
- **10:30am:** Introduction to the Kansas FCIP (KCC and KEP)
- **10:50am:** Panelists and/or case studies
- **11:20am:** Wrap-up and Q&A

Who's it for?

Governmental facilities (such as municipalities, schools, state universities, state hospitals, correctional facilities, etc.) located in Kansas that are interested in energy-efficiency upgrades.

16 June 2026 (Tue)

10:00am - 11:30am CDT
