

Signage Available from APS

Concealed Carry Weapons and Kansas Hospitals

State or Municipal Building 2013 HB 2052 EXEMPT

On and after July 1, 2013, all persons licensed to carry concealed handguns under the personal and family protection act are prohibited from carrying concealed handguns within this state or municipal building because either a temporary exemption or adequate security measures are in place pursuant to 2013 Senate Sub. For House Bill 2052.

Associated Purchasing Services (APS) is a participant-driven group purchasing organization affiliated with the Kansas Hospital Association and Missouri Hospital Association.

If Your Facility Needs Concealed Carry Signage ... APS Can Help

During the Kansas Hospital Association District Meetings, it was suggested to ask Associated Purchasing Services to help Kansas hospitals with their signage needs. APS has researched a number vendors and types of signs that would meet the requirements of the new Kansas regulations.

As you can imagine, there can be many variations of what each particular hospitals may want, for example, inside vs. outside, the types of attachments and materials, the size of the signs, designs with hospital logos vs. without, etc.

Hospitals are free to work with any vendor they would like, but if you don't currently have a sign vendor, or you would just like APS to handle your concealed carry signage needs, contact Traci Parsons at (913) 327-8730 or traci.parsons@apskc.org. You can work with APS directly or APS can refer you to the sign companies who are familiar with our needs and the requirements in the Kansas regulations.
