Hollister Incorporated is an independently-owned global company that develops, manufactures and markets health care products, servicing over 90 countries. From the earliest days of our company, there has been a strong sense of community—a connection to people. That connection is embedded in the very fabric of our company, and as we continue to develop new products and services, we are focused on meeting the health care needs of people throughout the global community.

St. John is a leading manufacturer and distributor of labels, patient identification, medical imaging and medical records products to the U.S. hospital and alternate site markets. One of our primary product lines is patient identification solutions, including patient ID wristbands for admissions, alerts, blood, labor and delivery, pediatrics, outpatient, disaster response and emergency room purposes, as well as companion labels to support Positive Patient ID and patient safety initiatives.

Backed by over 50 years of experience, PDC is the global leader in wristband identification, delivering innovative and reliable solutions to organizations in over 100 countries.

We are the industry leader by size, breadth of product and innovation, and the pioneer in the development of Automatic Identification solutions. These include PDC’s revolutionary bar code and radio frequency identification (RFID) wristband systems, which provide superior security and streamlined operations.

Powered by strategic alliances with the most technologically advanced companies, PDC is committed to providing the best identification solutions in the world with 100% customer satisfaction.

Our mission is to provide quality medical products with superior value to health care providers and end users, improving patient care and the quality of lives.

Our vision is to be the market leader in the health care industry by developing the most cost effective products combined with helpful clinical solutions. As a manufacturer of tens of thousands of medical products, Medline is dedicated to providing the highest quality products. In this pursuit, Medline has attained ISO 9000, EN 46000 and FDA QSR compliant, the most stringent international standards for producing quality products. As a result, Medline’s customers benefit from lower costs and reduced product defects.
