Leadership teams at rural hospitals and clinics across Kansas and 14 other states use the QHi benchmarking solution to capture the big picture when it comes to financial management. Uniquely designed to meet the needs of rural hospitals and clinics, QHi offers real-time financial dashboards, with more than 75 financial measures available to create customizable reports and access to proven practices at peer organizations. Hospitals enjoy the flexibility of self-selecting date ranges and peer groups to gain new insights. QHi is the only benchmarking tool that has the ability to compare quality, finance, workforce and patient satisfaction in one dashboard.

**Compare your financial performance with hundreds of hospitals and clinics across the country.**

QHi is a program of the Kansas Hospital Education and Research Foundation, the foundation of the Kansas Hospital Association. There is no additional cost for Kansas hospitals to use QHi. Join hundreds of hospitals who use QHi to drive smarter financial decisions today!

**Create real-time financial dashboards, trend reports and best practice reports:** Track your performance and compare it to your self-defined network of peers.

**Choose from a variety of reporting options:** Tailor your own financial reports to meet your needs, including bar graphs, line graphs and tables – at a glance and in detail.

**Schedule reports:** Turnkey controls enable you to automatically distribute monthly, quarterly or annual reports to key leaders.

**Benchmark with self-defined peer groups:** Track your performance against the medians in your network and self-defined peer groups in your state and nationality.

**Make direct connections with top performers:** Request a deeper dive into their best practices, critical success factors and lessons learned.
Participation in this project for Kansas hospitals is federally funded through the Kansas Department of Health and Environment (KDHE) Bureau of Community Health Systems (BCHS) Medicare Rural Hospital Flexibility Program (FLEX) Program. The FLEX program is managed by the Federal Office of Rural Health Policy, Health Resources and Services Administration, U.S. Department of Health and Human Services.

Turnkey Customization

Select the type of report you want to see and share for any measure. Select your own timeframes and peer groups to ensure you have access to the actionable data you need, when you need it.

High-level measures and trends. Select those measures supporting the quality, finance, workforce or patient satisfaction initiatives of your organization.

More Financial Indicators

Days Cash on Hand

Swing Bed Occupancy

Labor Costs to Net Patient Revenue

Charity Care

Total Margin
