Healthcare organizations are facing unprecedented cybersecurity challenges. From tightening compliance windows to the ethical complexities of AI and the growing risks.

Join the Kansas Hospital Association for a Noon Briefing on Wednesday, July 23, featuring ISG Technology as Chris Swartz, former Director of IT at the Hutchinson Clinic breaks down what these developments mean for your organization. With rising costs, limited budgets, and escalating cyber threats, now is the time to prepare with practical strategies and real world insight.

Key Topics Include:

- Upcoming government mandates and the short runway to compliance.
- Balancing AI innovation with HIPAA and data privacy.
- Third-party vendor risk in an outsourced healthcare world.
- How tariffs, global conflict, and supply chain issues are affecting healthcare IT.
- Why now is the right time to lean on managed services partners.
