

Community of Practice

APRIL 23RD

1-2 PM

# DRUG TESTING AND TRENDS AT THE KBI LABORATORY: PARTNERSHIPS AND PROGRESS PRESENTED BY PATRICK PORUBSKY

## BY THE END OF THE PRESENTATION, PARTICIPANTS WILL BE ABLE TO:

- Understand forensic drug testing at the KBI laboratory
- Describe trends observed in seized drug and toxicology data
- Discuss polysubstance use observations in data
- Recognize opportunities for cross community data sharing and collaboration

## CONTINUING EDUCATION

Continuing education credit will be offered to physicians, nurses, behavioral health professionals and social workers at no cost.

Thanks to the Kansas Department of Health and Environment and the OD2A grant for providing funding to make it possible to provide continuing education to participants.
