Medication Safety Webinar Series From Risk to Reliability: Advancing Medication Safety in Kansas

June 11 and July 17
Noon - 1:00 p.m.
[Click Here to Register](#)

Medication errors remain one of the most common preventable sources of patient harm in hospital settings. Oversight and support for safe medication use is a critical aspect of overall patient safety. Medication safety is a cornerstone of multiple regulatory and accreditation bodies, as well as quality performance programs. An understanding of top medication safety issues as well as prevention strategies are important topics for hospital and health system associates.

This two-part webinar series brings together pharmacy and clinical leaders from across Kansas to explore both the “what” and the “how” of medication safety. Participants will gain insight into the most frequently reported medication safety risks in hospitals today, hear real-world perspectives from health system, community, and critical access settings, and learn actionable strategies aligned with Institute for Safe Medication Practices (ISMP) guidance. Designed for pharmacists, nurses, providers, other clinicians, and hospital leaders, this series moves beyond awareness to practical application—equipping teams to strengthen systems, reduce variability, and improve patient outcomes.

Part 1: Top Medication Safety Issues and Prevention

Thursday, June 11, Noon - 1:00 p.m.

Join us as a panel of hospital pharmacists from different hospital sizes and types provide real-world perspectives on top medication errors in the hospital setting and how to prevent these errors.

Panelists:

- Chris Bell, Pharm D, MS, CPEL, National Senior Director, Medication Safety Officer, Ascension Rx
- Joann Moore, RPh, DPLA, Manager, Medication Use Safety & Quality, The University of Kansas Health System
- Whitney Owecke, Pharm D, Pharmacy Manager, Operations – Medication Safety, LMH Health
- Janine Ohler, Pharm D, BCPS, Clinical Pharmacy Specialist, Ascension Via Christi Hospital, Manhattan, Kansas.

Attendees will be able to:

- Describe resources available to identify key medication safety topics.
- Identify the most common medication safety risks and error types occurring in hospital settings.
- Recognize systems issues that contribute to medication errors.
- Apply strategies to prevent or mitigate medication errors in the hospital setting.

Part 2: Applying Medication Safety Best Practices

Friday, July 17, Noon - 1:00 p.m.

Join us to learn about the Institute for Safe Medication Practices (ISMP) Targeted Medication Safety Best Practices for Hospitals from Gregory Burger, PharmD, CPPS, FASHP, EMT, Medication Safety Specialist, Tallman Medication Safety Consulting, Topeka, Kansas.

Attendees will be able to:

- Recognize the Institute for Safe Medication Practices (ISMP) Targeted Medication Safety Best Practices for Hospitals.
- Evaluate error prevention strategies to prevent medication errors and adverse events.
- Identify ISMP's targeted high-alert medication risks and recognize and mitigate errors associated with these risks.
- Identify strategies to overcome implementation barriers of ISMP's best practices to improve quality and safety.

KHA Members: Complimentary

INFORMATION

How do you connect to the program?

One day prior to each webinar, you will receive an email from Melissa Willey at mwilley@kha-net.org, with zoom connection information. The email will include call-in and log-in information.

Important Note: Information for accessing the virtual event will be forwarded to the registered person listed on the registration form.

Webinar Recording

Each webinar will be recorded. Webinar recordings will be made available to participants who are unable to attend live.

Continuing Education

The Kansas Hospital Association is approved as a provider of continuing nursing education by the Kansas State Board of Nursing (Provider No. LT 0031-0116). This virtual event is approved for one (1) contact hours applicable for RN and LPN relicensure. Continuing nursing education certificates will be distributed by email to attendees who complete the final evaluation.

An application has been made with the Kansas Board of Pharmacy for one (1) contact hour of pharmacy continuing education. Approval is pending.
